Design Develop Defeat

Problem Statement:

Design Develop Defeat is a unique event and for the first time we are providing budding game developers a platform to showcase their ideas and skills.

If desired by the team they will be provided with the basic materials like sprites and characters which are required in the game. Additional materials can be used by teams as per their convenience. Teams have to come up with a unique idea based on genre of game provided and then build a game around that idea. Final game should be presentable and complete.

Try to be as creative as you can. Make something that would sell your game!

General Rules:

1. Students have to bring their own laptops and supported software's installed. Any game engine can be used for development.

2. Internet access will be provided. Inappropriate usage can result into point deduction. You can use resources from internet but it should not violate copyrights.

3. Plagiarism is prohibited (Teams should not copy codes from other teams). If found guilty, both the teams will be disqualified.

4. Game genres will be disclosed on the spot and will be related to the core theme ,i.e, IT for sustainability.

5. Coordinators will take a round periodically to check the progress of teams.

Judging Criteria:

Highly experienced professionals who are in the game development and creative industry will be evaluating the game. The decision given by judges will be final and no request of re-evaluation shall be entertained.

1) Game should be playable.

2) Game should have proper storyline and all the elements should be properly interconnected.

3) Efficient use of all the materials.

4) Proper explanation of game during presentation.

5) All the logics of physics and reality must be justified.

Team Specifications:

A team may consist of a maximum of 3 participants. Students from different educational institutes can form a team but the same should be mentioned beforehand to the coordinators.

Eligibility:

All students with a valid identity card of respective educational institutes are eligible to participate.
